

## *Connecting Communities to Resources*

To Whom It May Concern,

I am pleased to write this letter of recommendation for Caden Miller, a highly motivated and analytically skilled GIS driven individual whom I have had the pleasure of mentoring during their academic and professional journey. Caden has consistently impressed me with their dedication to public service, particularly through their multiple internships across a range of government agencies. He has worked with myself at Omega since February of 2025 and has tackled every project handed to him with grace and sophistication.

Throughout their time as a student, Caden demonstrated a remarkable ability to adapt to diverse environments, local community engagement to state-level administrative departments. Each role brought new challenges, and in each, Caden thrived—contributing meaningfully to initiatives aimed at improving community infrastructure, access to public resources, and the overall efficacy of local governance.

One of Caden's most notable strengths is their analytical approach to community development projects. Whether it involved assessing demographic data to support funding opportunities or conducting policy research to inform local economic development strategies or collecting and analyzing data to support community needs, Caden consistently delivered high-quality insights that informed real-world outcomes. Caden's ability to synthesize complex information and present it clearly to stakeholders is a testament to both intelligence and communication skills.

What sets Caden apart is not only a track record of achievement but also a genuine passion for public service. Caden approaches each opportunity not as a steppingstone, but as a chance to make tangible, lasting contributions to the communities served. It is clear that Caden is not only prepared but eager to dedicate his career to the betterment of society through government work.

I am confident that Caden will be an invaluable asset to any organization fortunate enough to have them. Please feel free to contact me if you need any additional information or insights regarding his qualifications.

Sincerely,  
Corinna Kerns
